**ALASKA**

Misty Fjords National Monument, about 40 minutes from Ketchikan via seaplane. Misty Fjords National Monument includes 2,294,343 acres on the southern tip of the Alaska Panhandle, all but about 156,000 acres near the middle have been designated Wilderness. Both brown and black bears, mountain goats, and black-tailed deer are common. Moose, martens, wolves, wolverines, and river otters may be found in abundance. All five species of salmon share the waters with sea lions, harbor seals, killer whales, and porpoises. Migratory and predatory birds, from bald eagles to trumpeter swans, fill the skies. Recreation can include hiking, fishing, wildlife and historic site viewing, hunting and kayaking. Live at Misty Fjords Lodge to prevent criminal mischief and vandalism. Help by answering phones and relaying voice and email messages, greeting visitors, selling annual fishing licenses, data entry and light janitorial work. Assist in grounds keeping, trail work and light maintenance outside. Caretakers will be in constant communication with a lodge manager residing in Ketchikan who is responsible for assistance with all mechanicals and helping to insure the constant proper functionality of the lodge. Allowance/housing is a furnished, efficiency apartment for year round lodging. Expense allowance, satellite internet and training, and more. Season is May to September with a minimum four week commitment. Please contact us at xxxxxxxx@hotmail.com or visit our website at www.

**ARIZONA**
